

AnyLogic activation instructions (Trial key)

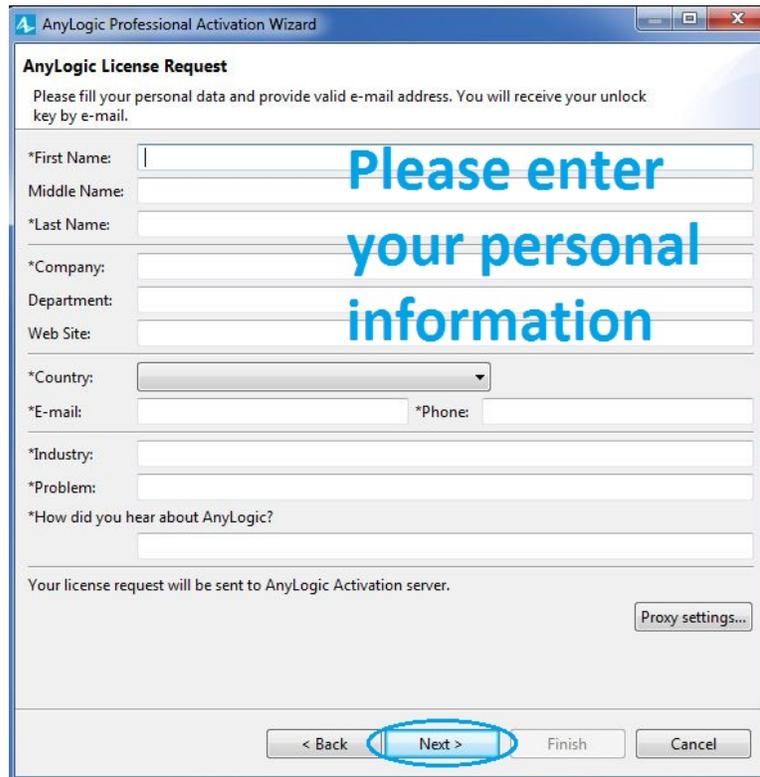

Dear Customer,

Thank you for choosing AnyLogic! Please complete the following steps to download and activate AnyLogic:

1. Download AnyLogic from www.anylogic.com/downloads
2. Install AnyLogic and run it. An activation wizard will show up automatically (to open it again later select “Help | Activate product”)
3. Select the option “Request a time-limited Evaluation key. The key will be sent to you by e-mail”. Click the “Next” button.

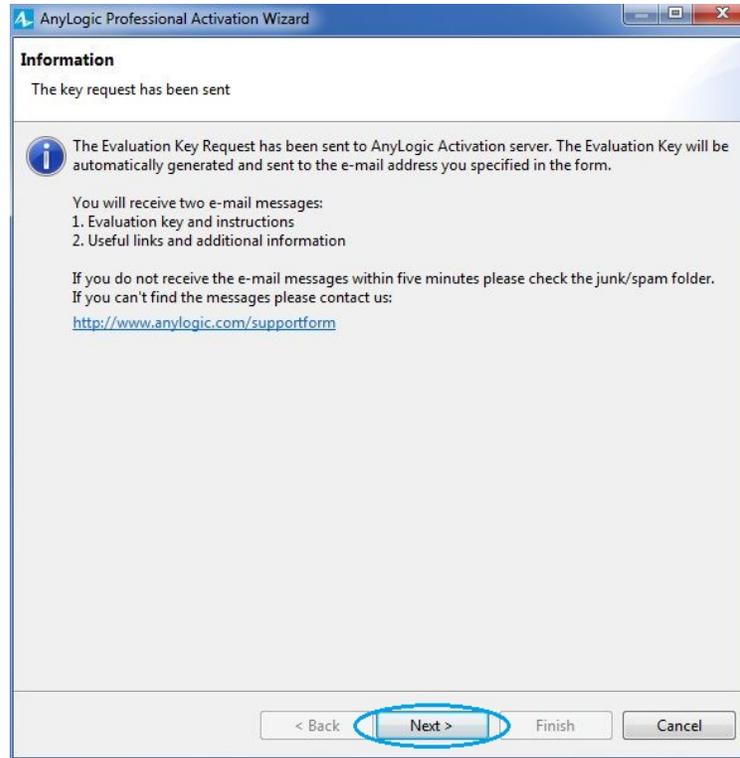

4. Fill in your personal details and click the “Next” button again.

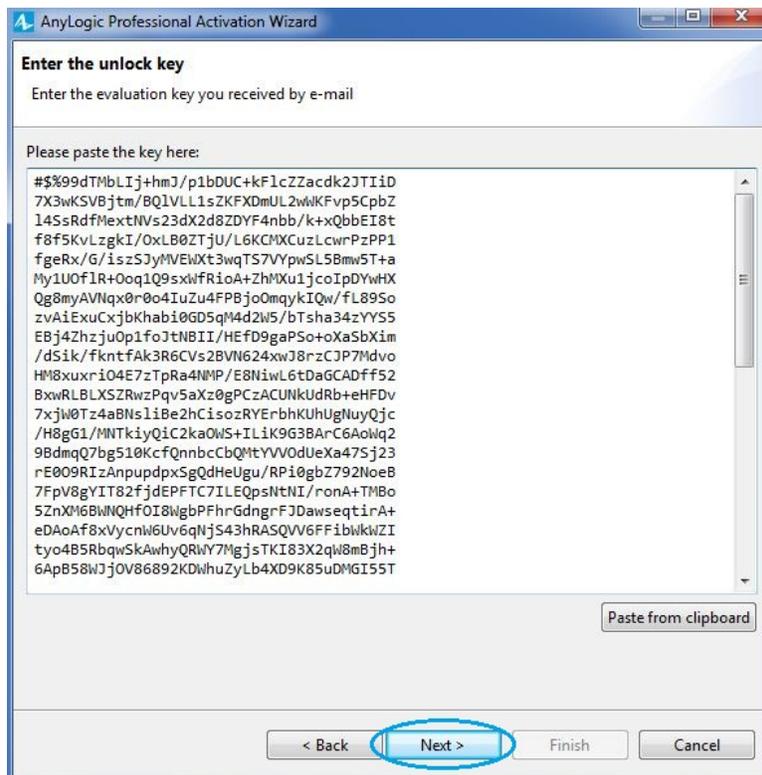

5. Now the request for a key is sent. It’s processed by our system automatically and in a moment after clicking the “Next” button you will receive 2 emails:

- With evaluation key automatically generated by our system
- With additional information and useful links

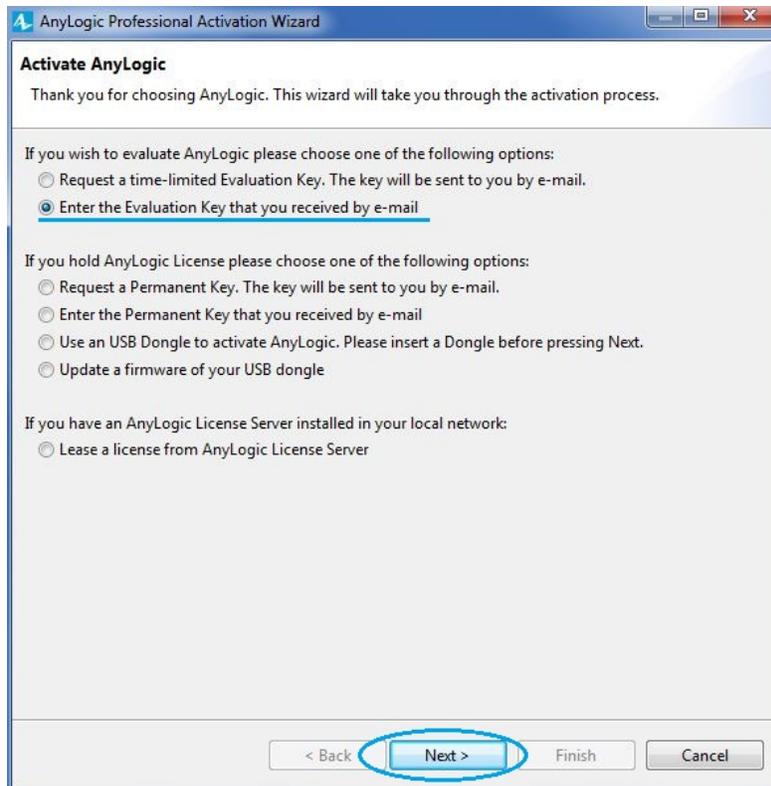

Please check the junk/spam folder, if you haven't received the email messages within 3 minutes. Click the “Next” button to continue the activation.

6. Copy the received activation key, paste it in the wizard field and click the "Next" button.

NOTE: If you have accidentally clicked the “Cancel” button in previous step, select “Help | Activate product” to open the Activation Wizard again. Select the option "Enter the Evaluation Key that you received by email" and click the "Next" button to see the “Enter the unlock key” window.

7. AnyLogic has been successfully activated.

If you have any questions or concerns, please contact us at support@anylogic.com

Sincerely yours,
The AnyLogic Company
